### POLICY MAKING PROCESS

1. "Start with the end in mind."
2. Reviewed current policy.
3. Got stakeholder input; studied best practices.
4. Reached consensus on policy principals.

---

---

---

---

---

---

---

---

### 1. START WITH THE END IN MIND

The ETPL enhancements should:

- Align state workforce development and training resources to support target state and regional industry sectors;
- Empower individuals;
- Ensure accountability and quality among providers; and
- Establish state policy with coherent and cohesive procedures

**ENHANCED ETPL BENEFITS**

- > Accountability for the use of taxpayer funds
- > Empowers individuals by providing greater levels of information in consumer reports with key information on performance outcomes of training providers
- > To survive in the market, training providers have to demonstrate successful performance to remain eligible to receive WIA funds.
- > Makes Kentucky's workforce more competitive.
- > High quality information aids customers in making informed judgments and steering clear of questionable programs or providers.
- > Provide the general public, program administrators and front-line staff access to information that, in many states, has never before been available.
- > Ensure that providers meet the employment needs of local employers and participants.
