**Kylie Whitaker, Chair**, invited members to introduce themselves. He walked through the CTE Statutes and the accountability placed on schools and scores and how children are educated. More information can be found at [CTE KDE site](#).

There were several questions around how the certifications are set up to positively impact needs of business and industry. How do businesses review and comment on what is in place? Kylie confirmed this is where a large focus of this committee will be; to better link what businesses need to what pathways are in place.

The committee and KDE need to incorporate the LWDA's into their discussions and have information that will be due in the short term.

Another meeting will be scheduled to discuss the short term needs and review recent survey information, as well as to create a permanent process, in association with the LWDA's.

## **Adjournment**

The meeting was adjourned at 12:00pm.
