EDUCATION AND
LABOR CABINET

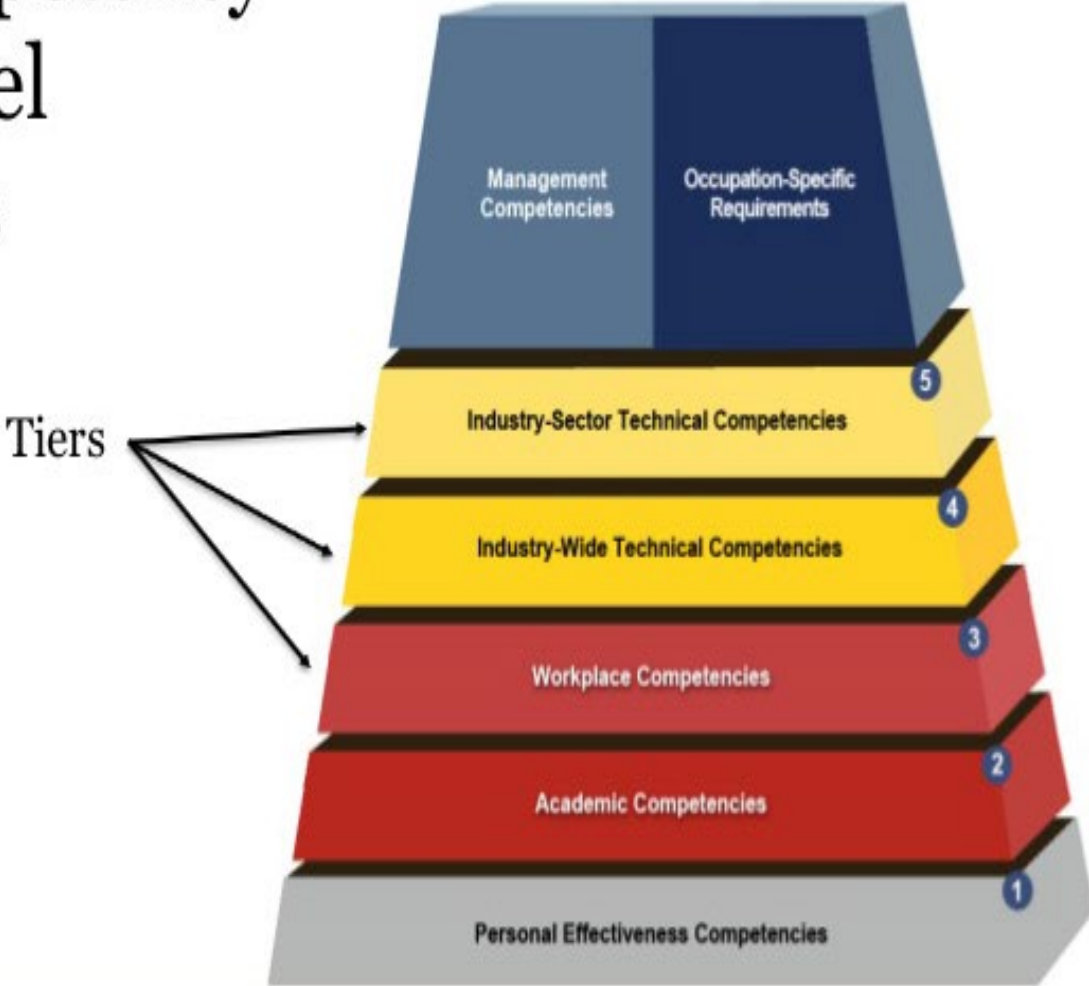

Ready for Industry

Presented by the Department of Workforce Development

Ready for Industry[®] Provides Essential General Industry Knowledge

Competency Model Tiers

Creates a bridge between standard K-12 education and the knowledge needed for success in industry.

Covers gaps in common technical training and the industry and workplace competencies in tiers 3 and 4 of the workplace competency model.

READYFORINDUSTRY 

Ready for Industry[®] Addresses Career Preparedness

This new platform, Ready for Industry, is designed to address career preparedness and awareness for near-term job seekers and employees from late high school through adulthood.

Ready for Industry bridges two gaps that exist in the preparation of many potential skilled workers:

- What industry pathway do I want to pursue?
- What is the basic info that employers want me to know that I might not learn in school?

Ready for Industry offers a comprehensive solution, providing separate 15–20-hour courses for each of the five highest-demand industries:

- Healthcare
- Manufacturing
- Information Technology
- Construction
- Logistics

Ready for Industry provides a context for post-secondary career search and employee training. This is NOT a replacement for technical training.

READYFORINDUSTRY

For each of the 5 highest-demand industries, RFI provides self-paced, online instruction on:

- Introduction to the Industry
- Working in the Industry/Terminology/Common Practices
- Career Opportunities and Descriptions
- Current Issues and Trends in the Industry
- Career Pathways, Education and Certifications in the Industry
- Workplace Expectations in Industry

Separate 15–20-hour courses for each of the 5 highest-demand industries:

- Healthcare
- Manufacturing
- Information Technology
- Construction
- Logistics

Section 2 of 7

Two Basic Drug Administration Routes

Two Basic Drug Administration Routes

There are two basic routes of medication administration:

(Click the cards shown to learn more about the two basic routes of medication administration.)

Ready for Industry[®]: Sample Questions Logistics

1. The transportation industry's effort to reduce human trafficking is designed to
 - A. Protect against people being transported against their will
 - B. Move drivers more quickly
 - C. Package goods more carefully
 - D. Create laws on public transportation

2. Which endorsement allows a driver to haul multiple trailers simultaneously?
 - A. hazmat
 - B. tank
 - C. doubles/triples
 - D. short-haul

3. Drive time limits and regulations are set and implemented by the
 - A. Department of Commerce (DOC)
 - B. Environmental Protection Agency (EPA)
 - C. Food and Drug Administration (FDA)
 - D. Department of Transportation (DOT)

Ready for Industry[®]: Sample Questions Manufacturing

- 1. A consolidation center is used to combine small orders and shipments into larger shipments to**
 - A. fill trucks to capacity**
 - B. incorporate more robots**
 - C. increase shipping time**
 - D. lower material costs**

- 2. The team member responsible for fixing machines as quickly as possible is the**
 - A. maintenance supervisor**
 - B. production manager**
 - C. maintenance technician**
 - D. production director**

- 3. Who designs, builds, and maintains the machines required for production?**
 - A. manufacturing technician**
 - B. press operator**
 - C. mechanical engineer**
 - D. millwright**

Ready for Industry[®]: Sample Questions Manufacturing

- 1. A consolidation center is used to combine small orders and shipments into larger shipments to**
 - A. fill trucks to capacity**
 - B. incorporate more robots**
 - C. increase shipping time**
 - D. lower material costs**

- 2. The team member responsible for fixing machines as quickly as possible is the**
 - A. maintenance supervisor**
 - B. production manager**
 - C. maintenance technician**
 - D. production director**

- 3. Who designs, builds, and maintains the machines required for production?**
 - A. manufacturing technician**
 - B. press operator**
 - C. mechanical engineer**
 - D. millwright**

Ready for Industry[®]: Sample Questions Healthcare

- 1. Which type of communication would most likely occur between the head of radiology and the head of cardiology?**
 - A. horizontal**
 - B. upward vertical**
 - C. diagonal**
 - D. downward vertical**

- 2. An example of Personal Protective Equipment (PPE) is**
 - A. gloves**
 - B. tissues**
 - C. sharps containers**
 - D. hand sanitizer**

- 3. Which therapist helps patients with permanent disabilities improve skills for daily living?**
 - A. occupational**
 - B. respiratory**
 - C. massage**
 - D. physical**

Ready for Industry[®]: Sample Questions Construction

- 1. Which type of carpenter typically constructs additions to homes?**
 - A. commercial**
 - B. residential**
 - C. niche**
 - D. trim**

- 2. More than half of all _____ workers are fabricators.**
 - A. sheet metal**
 - B. plumbing**
 - C. landscape design**
 - D. crane**

- 3. Which type of renewable energy uses a hydraulic turbine generator?**
 - A. biomass**
 - B. coal**
 - C. hydropower**
 - D. solar**

Ready for Industry[®]: Sample Questions Information Technology

- 1. What kind of network can be used to secure data when it travels over the internet?**
 - A. MAN**
 - B. VPN**
 - C. PAN**
 - D. SAN**

- 2. Which is the final phase of a security incident response plan?**
 - A. post-incident recovery**
 - B. preparation**
 - C. containment and eradication**
 - D. detection and analysis**

- 3. Which data management role includes the responsibility of ensuring that data is accurate, complete, consistent, and has integrity?**
 - A. Business Intelligence (BI) engineer**
 - B. data architect**
 - C. data quality engineer**
 - D. project manager**

- A. Many people are relying on each other to get the work done.**
- B. There are no actual due dates on IT assignments.**
- C. IT projects have very flexible timelines and can be adjusted easily.**
- D. IT professionals can pass work on to others.**

Ready for Industry[®]: Employer Sample Uses

- **Career Pathway Awareness:** The platform helps prospective workers understand the most in-demand industries by providing information about careers, businesses, and industry processes. Employers can encourage job seekers to explore courses related to specific industries.
- **Essential Industry Knowledge:** The tool covers essential processes in each industry, bridging the gap between standard K-12 education and workplace competencies. Employers can recommend courses to new employees to enhance their understanding of industry terminology, trends, and best practices.
- **Standardized Assessments:** This training offers industry-specific standardized assessments aligned with five high-demand industries: construction, healthcare, information technology, logistics, and manufacturing. These assessments validate individuals' knowledge and provide tangible proof of their awareness of industry requirements. Employers can consider these assessments during the hiring process.
- **Resourcefulness:** By combining courses with standardized assessments, employers can enhance workforce readiness and competitiveness.

Certificate of Completion – Industry Credential

- Currently participants can earn a Certificate of Completion
- Ready for Industry **industry-recognized credential** is being developed and planning for release later this year.
- Launched in 2024

NOCTI

Next Steps:

1. We have established a Kentucky Demonstration Class in the system for employers and businesses to review the training for their business needs. To set up your account, please visit <https://web.readyforindustry.com/Account/SelfSignup> or the QR code below and enter Class Code **9d92fd**.

Next Steps Continued:

2. After you have looked over the training and would like to access this tool and resource as an administrator, please go to <https://web.readyforindustry.com/StateEnquiry/EnquiryForm?sitecode=ky> and request a new account for your organization type.

3. Here's the link to the form "Ready for Industry Follow-Up Form" if you would like to meet with us again:
