

INFRASTRUCTURE FUNDING AGREEMENT FY23

I. INTRODUCTION

This Infrastructure Funding Agreement (IFA) shall determine how the Local Workforce Development Board and WIOA partners will fund the infrastructure costs with all the Comprehensive and Affiliate Kentucky Career Centers in the KentuckianaWorks Workforce Development Area. The KentuckianaWorks Workforce Development Board, chief local elected officials, and workforce partners hereby agree to amounts and methods of calculating amounts each partner will contribute for workforce system infrastructure funding as determined herein.

This agreement shall take effect on July 1, 2022 and expire on June 30, 2023.

The One Stop Operator coordinates the delivery of workforce services with the partners located in the aforementioned Kentucky Career Centers. See the MOU for a list of co-located partners and the services provided by each partner.

II. COST ALLOCATION METHODOLOGY

The workforce budget (Budget) and IFA for the KentuckianaWorks Local Workforce Development Area was prepared under the guidelines established in the OMB Circulars/ Common Rule and the One-Stop Comprehensive Financial Management Technical Assistance Guide. The standards contained in the cost principles budgetary structures and generally accepted accounting principles (GAAP) were combined in order to identify the direct and common characteristics of each expenditure category.

The costs in this IFA are infrastructure costs and delivery system costs that are the total costs paid by each partner individually and those costs shared jointly with the partners. Where there are shared costs, the workforce partner program's proportionate share of funding has been calculated in accordance with the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards in 2 CFR part 200.306 based upon a reasonable cost allocation methodology whereby infrastructure costs are charged to each partner in proportion to relative benefits received, and have been determined to be allowable, necessary, and allocable;

The KentuckianaWorks Workforce Development Board as identified in the KentuckianaWorks Workforce Development Area MOU, hereby certifies that this plan has been prepared in accordance with these guidelines.

This Plan has identified and equitably distributed workforce system infrastructure and delivery system costs by cost pools/items. The infrastructure and delivery system costs are funded through cash, non-cash and fairly evaluated in-kind partner contributions and include any funding from philanthropic organizations or other private entities, or through other alternative financing options, to provide a stable and equitable funding stream for ongoing workforce delivery system operations.

The Budgets, attached hereto, were based on historical costs from the previous Fiscal Year expenditures which shall be reconciled quarterly and at year end against actual costs in the current fiscal year and adjusted accordingly within the first 30 days of the beginning of each next fiscal year. Any overpayment from any partner shall be deducted from that partner's next FY's share of costs for that equal amount. Any underpayment from any partner shall be added to that partner's next FY's share of costs for that equal amount. Each partner will receive a copy of the reconciled year end budget showing actual costs AND the amounts that will be added/deducted to the next FY's budget.

III. DIRECT COSTS

Cost are broken down into two categories; *Infrastructure Costs* and *Delivery System Costs*. Infrastructure Costs include rent, utilities, janitorial, supplies, equipment, copiers, and internet/phones. Delivery System Costs include personnel-salary/fringe, travel, and outreach. Both cost categories are allocated in the attached budgets as part of this Infrastructure Funding Agreement. All direct costs that are incurred by individual partners are the responsibility of the individual partner agency unless a cost pool/item is agreed by all partners to be shared proportionately based on benefit received.

IV. SHARED COSTS

Shared or *Common* Costs can be an Infrastructure Cost and/or a Delivery System Cost and are allocated (using appropriate methodologies) and agreed upon by all the partners to be shared proportionately based on their fair share of benefit received.

ADDITIONAL COSTS

WIOA sec. 121(i)(1); 20 CFR 678.760(a)-(b), 34 CFR 361.760(a)-(b), 34 CFR 463.760(a)-(b)

- Must include the costs of the provision of career services in WIOA sec. 134©(2) applicable to each program consistent with partner program's authorizing Federal statutes and regulations, and allocable based on Federal costs principals in the Uniform Guidance at 2 CFR part 200.
- May include shared operating costs and shared services that are authorized for, and may be commonly provided through, the workforce partner programs, including initial intake, assessment of needs, appraisal of basic skills, identification of appropriate services, referrals to other partners, and business services.

INFRASTRUCTURE COSTS

WIOA sec. 121(h)(4); 20 CFR 678.700(a)-(b), 34 CFR 361.700(a)-(b), 34 CFR 463.700(a)-(b)

- Non-personnel costs
- Costs necessary for the general operation of the workforce system, including but not limited to:
 - Applicable facility costs (such as rent) including costs of utilities and maintenance

- Equipment (including assessment-related products and assistive technology for individuals with disabilities)
- Technology to facilitate access to the one-stop center (including technology used for the center's planning and outreach activities)
- May consider common identifier costs as costs of workforce center infrastructure
- May consider supplies as defined in the Uniform Guidance at 2 CFR 200.94, to support the general operation of the workforce center.

V. PARTNER PROVISIONS

The allocation of costs will be revised each time a partner begins or terminates delivery of service in the workforce system or at any time a partner agency substantially changes its leased premises or number of employees present in the system. Accordingly, the IFA shall be adjusted to reflect changes in the allocations of Delivery System Costs. All partners must agree in writing on the initial allocation and any subsequent changes to the initial allocations.

All purchases for the workforce system that would be pooled and allocated to all partners, must be approved by all partners, One-stop operator, WDB Director, and KY Department of Workforce Investment before it is presented to the Board for approval.

To ensure equitable benefit among the workforce partners, this Infrastructure Funding Agreement shall be reviewed annually and modified as aforementioned. The KentuckianaWorks Workforce Development Board will work with workforce partners to achieve consensus and mediate any possible conflicts or disagreements among the partners as described in the KentuckianaWorks Workforce Development Area MOU.
