11a.m. EST Welcome

Beth Engle opened the meeting and shared that the dynamic process has been working well and several times since its inception. Information on the process can be found <u>here</u>.

There were numerous certifications up for review this quarter and the list can be found in the attached excel spreadsheet.

Beth walked through the first several and **Kim Humphrey, KWIB member,** asked about the process. **Regan Satterwhite** shared background on the process and that recommendations can come from business and industry representatives or local workforce development areas, as well as educational facilities that see a high demand need for a new certification pathway. Vendors cannot just fill the form out and submit on their behalf, without the recommendation being a high demand career option and a needed pathway. The Business, Education Alignment Teams (BEAT) teams review the submissions, compare to existing pathways and certifications and confirm the path is a high demand credential prior to providing a recommendation to move to the KWIB. She added that CTE wants schools to be adequately and equitably funded for pathways going forward. Support from the KWIB gives and advocates for the process to legislators helps.

Regan suggested that at the next meeting we pull the certificate request form up for review with this committee to ensure we have information clearly requested and add additional information if the committee thinks it necessary for consideration.

Scott Pierce provided a motion. **Kim Humphrey** provided second motion. Motion **carried** unanimously with no dissenting votes.

The updated list can be found on the Department of Education website or through the KWIB site on the <u>CTE Certification</u> form page.

Adjournment

Meeting was adjourned at 11:26am.
